

Fort Erie Times Nov. 14, 1924.

Central Avenue Paving.

Aided by fine weather the contractors for the paving of Central Avenue, have been making rapid progress. Phipps St. has also nearly been completed, although there is still some surfacing to be done at the west end. The road is open to traffic all the way however, which is a great convenience to motorists going west.

On Sat. afternoon the steam shovel operating on Central Ave. dug up telephone cables with about 600 wires near the head office of the Welland County Telephone Co. As a result all the telephones in Fort Erie, and many in Bridgeburg were out of service for a time.
