A FINISH FOR EVERY SURFACE

FORT ERIE LUMBER AND SUPPLY CO.

1945

FORT ERIE LUMBER & SUPPLY LTD. Niagara Blvd. & Gilmore Rds.

Suppliers of Shingles, Insulation . Lumber and lumber products; nails paints & gasoline& oil prods.

Officers::: W. E. Bernhard ::: President & Treasurer.
T.C. Westman ::: Vice President & Manager.
R.J. Bernhard::: Secretary.

This property later caught on fire, and the company went out of business. Mr. T.C. Westman, then went into the Lumber business at the foot of Catherine St., on the river side; known as Westman's Lumber Yard. He built a large brick home just south of the Sunday School for St. Pauls.

Fort Erie Lumber & Supply Co. Limited (Fort Erie, Ont.), handle a complete line of lumber and lumber products, also Creo-Dipt Shingles, Ruberoid Shingles, Bestwall and Insul Board; also nails and paints, and operate in connection with this a gasoline and oil filling station of modern equipment, located on Niagara Boulevard at Gilmore Rd.

The success of the lumber and gasoline business of this concern is directly attributed to the courtesy of its employees, the honesty with which its negotiations are conducted and the whole-hearted intent of each officer of the corporation to serve his community well, in belief that through service one profits most.

The officers of the Fort Erie Lumber & Supply Co. Ltd., who have contributed largely to the success of that enterprise are W. E. Bernhard, president and treasurer, T. C. Westman, vice-president and manager, and R. J. Bernhard, secretary.

Patrick Franklin Ryan (Crystal Beach, Ont.), was born on February 24th, 1865, at Kingston, Ont.

Son of Patrick Ryan.

Educated at the separate schools at Kingston, Ont.

Early days was a purser on the boats.

Also in the lumber business.

Married Miss Emma Hannaske.

Three sons, Julius P., Vincent M., and Edward J.

Trustee of the village at Crystal Beach.

Six or seven terms as reeve and still holds that position.

St. George Roman Catholic Church.

Member of the Knights of Columbus.

march. 1936:::

Since the Fort Erie Lumber and Supply Company at the corner of Gilmore Rd. and Niagara St. opened it's service station in Fort Erie eight years ago, it has kept pace with the steady progress in the automobile field. Realizing that improvements on cars necessitate improvements in their servicing - that the slap dash methods of a decade ago are no longer suitable for the finer mechanisms of the modern car/ the Comp. has specialized in scientific lubrication.

The result is that to-day the Comp. offers the most completely equipped service station in the Peace Bridge area. A capable staff and ample accomodations ensure quick service. Full lubrication knowledge and suitable equipment ensure good service-the kind to keep you car in good running condition to give longer life and more satisfaction.

Features of the Fort Erie Lumber and Supply Comp. service are Alemite Prescribed Lubrications. The result of countless hours spent by laboratory scientists testing the various types of lubricants in the various models of cars are passed on to you at no extra charge. The result is that when you drive your car into this garage, there is no need for the trained service men to do any experimenting. They have the prescription for your car ready and waiting, and they see that it is carried out correctly.
