Selecting a memorial is an opportunity to express forever the unique personality of a special person. A personal memorial is an expression of love and respect for the life of a person, as well as a source of satisfaction and comfort to those who are left behind. Additionally, a memorial is the one lasting record of your family that will never be lost or erased from the face of the earth.

We at Rigg Monuments have been serving area families since 1897, and are proud of our excellent reputation for expert craftsmanship and fine service. There are many different qualities of granite, and only the world's finest, that carry an unlimited guarantee, are used by our company. Over the years, monument companies have opened, only to close a few years later. You can be assured, when making this once in a lifetime purchase from our company, that you will be sold a memorial of only the finest quality granite, for we are proud not only of our reputation for excellent service & craftsmanship, but also of our guarantee.

As it takes approximately 10 weeks to have a memorial ready for the cemetery, we invite you to come by now and see our wide selection of memorials, some of which are now on sale. We are here to be of any help that is necessary in order for you to make this very important decision.

The final date for the installation of foundation for memorials every Autumn is in October, and then none are poured until the following June. Weather permitting, memorials can be placed in the cemeteries before June if the order is received no later than September 30th. This guarantees that the foundation will be poured in October.

We are here to be of any assistance necessary in order to help you with this very important decision.

Sincerely,

Maggie Chambers, and Isabel Beam
